

Lab Guide: What to Do Each Week

CPS 845 Lab • Fall 2026 • Fridays 2:00–3:00 PM

Where to find everything

D2L → **09 labs** → **Lab Docs** • or this website: sirivellaanjani.github.io/CPS845-lab

- **Weekly Lab Plan:** what happens in each lab and what is due.
- **Templates:** the documents you fill in and submit.
- **Worked examples:** a completed example of each template, to show the level of detail expected.
- **Rubrics:** how each submission is graded.
- **Assessment Weighting Breakdown:** weights and deadlines for every submission.

1. In lab (Fri 2:00–3:00)

1. Open the **Weekly Lab Plan** and read this week's row.
2. Open the **template** and look at its **worked example**.
3. Follow the template's "**How to work with AI**" steps: Without AI → With AI → Decide together → Reflect.
4. Do the **Lab Activities** with your team, and aim to reach "**Done by End of Lab**" before you leave.
5. Fill in the **AI Reflection**: 2 questions answered as a team, at least 30 words each.

2. After lab

6. Finish the deliverable, due **next Friday at 2pm**.
7. Check your work against the **rubric**, then submit the document and its AI Reflection. (Sprint Retrospective has no AI Reflection requirement)

3. Weeks that work differently

Week	Date	What is different
—	Fri 16-Oct	Study Break: no lab.
5	Fri 23-Oct	"Daily Scrum"; try coding one task with AI, and record the experience in the Sprint Retrospective. Code isn't graded.
6	Fri 30-Oct	Work on the Sprint Retrospective. Final group submission (due Mon 2-Nov): one ZIP file with all the documents your team worked on: Requirements Breakdown, Product Backlog, Sprint Backlog, their AI Reflections, and the Sprint Retrospective.
7	Fri 6-Nov	No lab.
8–10	Fri 13, 20, 27-Nov	Individual project: work time, with TA help.
