

Requirements Breakdown — Worked Example

Epics → Features → User Stories

Worked example using the amateur dance club app from Lecture 04 (“A more detailed example”). Your project will be different; use this to see the level of detail expected.

Group #	Example	Project Topic	Amateur Dance Club App	
Team Member Names	Ana	Ben	Chen	Dev

About this template

Break your product down from the top of the hierarchy to the bottom (Lecture 04, “Example breakdown”):

Vision → Goal / Outcome → Epic → Feature → User Story

How to work with AI

- **Without AI:** brainstorm and complete this document yourselves first.
- **With AI:** ask AI to do the same work.
- **Decide together:** compare the two and decide what goes into this submission: your ideas, AI’s, or a mix.
- **Reflect:** complete the AI Reflection and submit it with this document.

What to submit

- **Group:** Vision, Goal / Outcome, at least 2 Personas + 3 Epics (at least 1 Feature per Epic) + 3 User Stories per Epic.

Guidance: writing good User Stories

- Write stories in the customer’s language, without technical detail.
- Each user story contains one goal of the user: describe what the user wants to do, not how the goal is satisfied.
- Use personas (a name + profile) to avoid the “super user” syndrome: a user who knows everything and can do anything.
- Check each story with INVEST: **Independent** (of other stories) · **Negotiable** (captures the essence; details negotiated during development) · **Valuable** (has value for someone) · **Estimable** (enough detail to estimate the effort) · **Small** (fits on a card, doable in one sprint) · **Testable** (so we know when it’s done).

1. Vision and Goal / Outcome

Vision <i>Broad in scope; addressing it can take many years and many projects.</i>	Be the simplest way for small amateur clubs to run their practices and finances.
Goal / Outcome	Reduce unpaid practice attendance by 50% within one term, as measured by the treasurer’s monthly report.

A goal made concrete with a quantitative statement: "Increase ... by ...% as measured by ..."

2. Personas

Persona Name	Profile <i>Who they are, what they are comfortable with</i>	Goal <i>What the persona wants to do (not how)</i>
Tina (treasurer)	45, volunteers a few hours a month, comfortable with spreadsheets and email	Know who has paid, and pay the hall rent and coach on time
Carlos (member)	22, student, does everything on his phone, sometimes forgets to pay	Know when practices are and pay quickly
Maya (coach)	Has a full-time job that sometimes makes her miss practice	Be paid correctly for the practices she taught

3. Epic → Feature → User Story Breakdown

Epic ID	Epic	Feature <i>As a [persona]: [capability]</i>	Story ID	User Story <i>As a [persona]: [goal] so that [reason]</i>
E1	Scheduling and Attendance	As a treasurer: manage the practice schedule	US-1.1	As a treasurer: add and remove practice sessions so that members always see the current schedule
		As a treasurer: record attendance	US-1.2	As a treasurer: record which members attended each practice so that I know who owes for that session
		As a treasurer: record attendance	US-1.3	As a treasurer: record whether the coach taught each practice so that she is paid only for practices she attended
E2	Payments and Finances	As a member: pay for practices	US-2.1	As a member: pay for up to one month of practices in advance so that I don't have to pay each time
		As a treasurer: track club finances	US-2.2	As a treasurer: see each member's balance so that I know who still owes money
		As a coach: check my pay	US-2.3	As a coach: see how many practices I will be paid for this month so

Epic ID	Epic	Feature <i>As a [persona]: [capability]</i>	Story ID	User Story <i>As a [persona]: [goal] so that [reason]</i>
				that I can check my pay
E3	Reminders	As a member: receive reminders	US-3.1	As a member: get a reminder before each practice, regular or ad hoc, so that I don't miss it
		As a member: receive reminders	US-3.2	As a member: be notified when I log in if I have missed a payment so that I can pay it
		As a treasurer: send payment reminders	US-3.3	As a treasurer: have an email sent automatically to members who missed a payment so that I don't chase them one by one
