

Sprint Backlog — Worked Example

Worked example using the amateur dance club app from Lecture 04 ("A more detailed example"). Your project will be different; use this to see the level of detail expected.

Group #	Example	Project Topic	Amateur Dance Club App	
Team Member Names	Ana	Ben	Chen	Dev

About this template

The Sprint Backlog is the subset of Product Backlog items selected for the Sprint, broken down into Sprint Tasks.
Critical: Once the Sprint starts, the Sprint Backlog should not change.

How to work with AI

- **Without AI:** brainstorm and complete this document yourselves first.
- **With AI:** ask AI to do the same work.
- **Decide together:** compare the two and decide what goes into this submission: your ideas, AI's, or a mix.
- **Reflect:** complete the AI Reflection and submit it with this document.

What to submit

- **Group:**
 - at least 1 User Story selected by the group AND
 - at least 1 Task assigned to each team member

Guidance: Sprint Tasks

- A task specifies how to achieve the story, and requires one day or less of work.
- A point person volunteers to be primarily responsible for a task; the task is still owned by the entire team.
- Estimate each task in hours; re-estimate the remaining effort as work progresses (typically daily).
- Status follows the task board: To Do → Doing → Done.

1. Sprint

Sprint #	1	Start - End dates	9-Oct - 30-Oct
----------	---	-------------------	----------------

2. Selected User Stories

Story ID	User Story <i>Copied from the Product Backlog</i>	Estimate <i>From the Product Backlog</i>
US-1.2	As a treasurer: record which members attended each practice so that I know who owes for that session	3

3. Sprint Tasks

Task ID	Story ID	Task <i>How the story will be built (≤ 1 day)</i>	Point Person	Estimate (hrs)	Remaining (hrs)	Status <i>To Do / Doing / Done</i>
T-1	US-1.2	Add an "Attendance" button under the admin account that opens a list of members with checkboxes	Ana	6	6	To Do
T-2	US-1.2	Create the attendance table in the database (practice, member, present)	Ben	4	4	To Do
T-3	US-1.2	Save the checked attendance and show it for past practices	Chen	5	5	To Do
T-4	US-1.2	Mark members who attended but haven't paid as owing \$10	Dev	4	4	To Do

Shown as submitted at the start of the Sprint. Every task is one day or less, and every team member is point person on at least one task. Remaining (hrs) and Status are updated as the Sprint progresses.
